Ahmed Seid

Software Engineer

ABOUT ME

I am a Software Engineering student and Full Stack Developer passionate about building modern, scalable web applications. I combine strong frontend and backend skills—React, Node.js, Express, MongoDB—with a solid foundation in core computer science principles including Data Structures, Algorithms, and problem-solving.
Beyond web development, I am proficient in Java and Python, allowing me to tackle diverse software engineering challenges. I focus on writing clean, maintainable code and delivering seamless user experiences.
Highly motivated and detail-oriented, I am always eager to take on new challenges that help me grow as a developer.

EXPERIENCE

Full Stack Developer

March 2025 - Present

- Developed and deployed full-stack web applications using MERN stack Built responsive and user-friendly interfaces with React and Tailwind CSS Designed RESTful APIs using Node.js and Express Integrated MongoDB for efficient data management Implemented authentication and admin dashboards

Full Stack Developer Intern

Present

- Assisted in developing responsive UI components using React Collaborated with team members on real-world projects Improved website performance and user experience

EDUCATION

Bachelor of Science
Software Enginnering
University of Debre Birhan
2024 - Present

SKILL

- Programming & Software Development — Java, Python, React, Node.js, Express, MongoDB
- Logical Thinking & Problem Solving — Strong foundation in Data Structures and Algorithms
- Full Stack Web Development — Building modern, responsive, and scalable web applications
- Software Debugging — Writing clean, maintainable code with efficient debugging practices
- Performance & Scalability Optimization — Ensuring applications are optimized for speed and growth
- Software Engineering Principles — Object-oriented design, system architecture, and best practices
- Version Control — Git / GitHub
- Conflict Resolution — Collaborating effectively in team environments
- Oral & Written Communication — Clearly articulating technical concepts and collaborating with stakeholders
